

## RECORD ANTIFREEZE CONCENTRATED G 11

Ethylene glycol based, nitrite- amine- phosphate free

### TECHNICAL SPECIFICATIONS

According to:

- ASTM D3306
- BS 6580:2010
- CUNA NC 956-16
- AFNOR NF R15-601
- SAE J1034

| DESCRIPTION             | METHOD              | VALUE                             |
|-------------------------|---------------------|-----------------------------------|
| Color                   | Visual<br>QUA.16.IS | standard green- blue              |
| Appearance              | Visual              | Clear, free from suspended matter |
| Solubility in water     | QUA.18.IS           | In all proportions                |
| Density @ 20°C          | ASTM D1122          | 1.110 – 1.140 gr/cm <sup>3</sup>  |
| Water                   | ASTM D1123          | 5% max                            |
| Alkalinity reserve      | ASTM D1121          | 16 ml HCl 0,1 N min.              |
| Freezing point 50% vol. | ASTM D1177          | -37 °C min.                       |
| Boiling point 100% vol. | ATM D1120           | 165 °C min.                       |
| pH 50%                  | ASTM D1287          | 7.5                               |
